BACKSTAGE CREDENTIALING POLICY

To increase the safety of our backstage environment, the Broward Center for the Performing Arts (BCPA) will be requiring all BCPA staff, stagehands, vendors, performers and their respective representatives to have and display a credential at all times while in any of our backstage areas.

Credential Criteria

Credentials are to be produced, maintained, distributed and collected by the entity performing in a BCPA venue. Although it would be optimal to have every individual's name and photo on a credential, this may not be feasible in all situations. At a minimum, the credential must have the following characteristics:

- Credit card size or larger and double sided

- Include the name and logo of their organization

- Plastic or laminated

- Affixed to a belt-style clip or lanyard

- Be difficult to easily replicate

Displaying and Wearing Credential

- Present credential at the Security Desk

- Conspicuously wear credential while backstage

- Everyone must have their own credential

- Provide a sample copy of credentials to BCPA Venue, Production and Security in advance

- **Credentials are NEVER expected to be worn on stage**

Exceptions

- Headliner artists who remain on tour buses or who arrive immediately prior to showtime are not expected to display/wear a credential

- Children performing in recitals or BCPA Education productions are not expected to display/wear a credential, but must be accompanied and escorted by someone wearing credentials

MAP & DIRECTIONS

The Broward Center is conveniently located in the Riverwalk Arts & Entertainment District in downtown Fort Lauderdale, equidistant between Dade and Palm Beach Counties and can be reached by several routes.

From Interstate-95:
 Exit at Broward Boulevard, Go east.

From Florida Turnpike (southbound):
 Exit at Sunrise Boulevard, Go East to South-bound I-95,
 exit Broward Boulevard, Go east.

From Florida Turnpike (northbound):
 Exit at I-595, Go East to North-bound I-95,
 exit Broward Boulevard, Go east.

To Backstage Parking
South Security Gate:
 From Broward Blvd., turn South onto SW 7th Ave. Turn left at West Las Olas Blvd. (the second light). Take an immediate left into the backstage lot security gate. If you have a key card, hold it up to the reader and the gate will open -OR- push the buzzer to contact guard.

North Gate (trucks and buses):
 From Broward Blvd. turn south onto SW 5th Ave. Turn right at Second Street (Himmarshee St.) The gate entrance to the backstage lot is on your left. Push the buzzer to contact security.

To Parking Garage and Valet:
 From Broward Blvd., turn South onto SW 5th Avenue. The Arts and Science Parking Garage is on the immediate right, or, proceed straight ahead, cross Second St. (Himmarshee St.) and continue to the top of the hill for valet service.

From Ft. Lauderdale International Airport
 Take the "US1 / Federal Highway Northbound" exit out of the Airport. Travel North on US1 to SE 17th Street Causeway. Turn left (West) and go to SW 4th Avenue and turn right (North). SW 4th Avenue will become SW 7th Avenue at the bridge. Go over the bridge, turn right at West Las Olas Blvd. Take an immediate left into the backstage lot security gate, push the buzzer to contact guard. OR proceed to 2nd light, turn right and use either North Lot, Garage, or Valet as described above.

GPS Addresses (not valid mail addresses!)
South Security Gate   **North Gate (Trucks & Buses)**
641 West Las Olas Blvd.   582 SW 2nd Street
Ft. Lauderdale, FL 33312   Ft. Lauderdale, FL 33312

Truck, Bus, & Vehicle Parking
 Truck & Bus Parking on site is very limited. Please inquire with Production Staff prior to arrival. There is parking available directly backstage in the North & South lots and additional parking available in the Arts and Science parking garage located across the street from the theatre. Parking arrangements must be discussed with Production Staff prior to the event for necessary access information, passes, and badges.

Package Deliveries
 For all deliveries, please use our main building address to the care of your production and the recipient.

Kings Row Right	Remove House Right Row Y 2 – 28	12 seats lost

Mezzanine Level Total – 504 seats

Mezzanine Club Section	Row C – J	71 seats
Mezzanine Level	Rows A – K	409 seats
Mezzanine Box Seats	Box A, B, D, E	24 seats

Balcony Level Total – 630

Balcony Level	Rows A – N	614 seats
Balcony Box	Box A & C	16 seats

Au-Rene Seating Chart
STAGE SPECIFICATIONS

STAGE FLOOR is a semi sprung floor with double layer tongue and groove plywood on aluminum sleepers over rubber blocks, and finished with black Stagelam®. The rubber blocks are surrounded by a steel channel which limits over-decompression. Any damage to floor incurred by a production must be restored at conclusion. Both Thrust configurations are curved; measurements given are long the centerline.

HEIGHT OF GRID	90'
HEIGHT OF PROSCENIUM	40'-4"
WIDTH OF PROSCENIUM	55'

RIGGING SPECIFICATIONS

Counter weight system is a single purchase under-hung with 87 hand operated line sets and two operating positions available. One position is located on stage level and the second is located 33' above stage right deck. The grid is a Purlin Grid. Wells are located 5'-5", 16'5", 27'5", and 38'-5" L/R of center.

LINE SETS AVAILIBLE	86 (6" on center)
GRID HEIGHT	90'
TRAVEL DISTANCE	84'3" (From "pipe in" position)
MAX WEIGHT PER ARBOR	1,800 lbs
TOTAL WEIGHT AVAILIBLE	150,000 lbs
LENGTH OF BATTENS	63'
DIAMETER OF BATTENS	2"

OBSTACLES
Line set #1 has a hard portal header and line set #2 has a set of adjustable hard portal legs. Portal header and legs are permanent and cannot be removed. Use line set #3 as first available.

Orchestra Shell Ceilings
There are three permanent orchestra shell ceiling panels; the first is located between line sets #9 & #10. The second is located between line sets #24A & #25. And the third is located on line set #36. Line sets #9, 10, 24A, 25, and 37 have limited out trims (around 60') due to proximity of orchestra shell ceilings. Avoid using these line sets for working pieces if possible. See line schedule for more out trim information.

House Curtain
The Au-Rene house curtain is motorized and operated at a maximum of 180 feet per minute, minimum 40 feet per minute, two halves with a three foot overlap. It is located 6" upstage from smoke pocket. The house curtain is permanent and cannot be shifted to another pipe or removed.

SOUND AND COMMUNICATIONS

SPEAKER CONFIGURATION

The Au-Rene Theatre has a stereo line array system, flown flanking the proscenium opening to cover the Orchestra and Mezzanine levels with a center sub array. Delay arrays provide coverage for the Upper Balcony and the Under Balcony Fills consistent of ceiling mounted loudspeakers provide fill for seating located under the Mezzanine and Balcony overhangs. The side boxes have dedicated speakers aligned in three delay zones to improve intelligibility to these areas when the house arrays are flown out and touring arrays are utilized. The front fills service the first few rows of seating in the lower orchestra and are housed in a continuous cavity along the front of the stage.

Main Arrays

The primary speaker system consists of (2) Meyers Line Array of eleven (11) MICA speakers, flown on either side of the proscenium opening.

Sub Arrays

The Sub-woofer center array consisting of (6) Meyer M3D cardioid pattern sub woofers.

Delay Arrays

The Delay Arrays consist of two (2) Meyers Line Array Clusters of five (5) MICA speakers.

Under-Balcony Fill

The mezzanine level under balcony fills consist of twelve (12) d & b Audiotechnik E8. The Orchestra level under balcony fills consist of four (4) E12-D speakers powered by three (3) d & b Audiotechnik D12 amplifiers.

Side Box Fills

The fills for the side boxes consist of (18) E6 speakers powered by (3) d & b Audiotechnik D-6 amplifiers.

Front Fills

The front fills consist of EAE UB12Si speakers powered by (3) d & b Audiotechnik D-6 amplifiers.

Patching

All systems are available for individual discrete patching at mix positions as well as DSL and DSR patch points.

Audio Power

Audio power for the Au-Rene Theatre is provided through K-13 transformer delivering clean isolated power to all audio and video locations throughout the theatre. The following locations are available company tie ins:

> 100 amp 3 phase switch at DSL and DSR
> (2) 20 AMP receptacles available DSR, DSL, USL, USR

SOUND MIXING POSITION

There are three mixing positions available. You must discuss all seat holds for mixing positions with Production or Event Staff prior to tickets going on sale.

SOUND BOOTH

Located in the rear of the orchestra level approximately 140' from the stage. This position is in a sound booth under a balcony that has a window that can open and is approximately 8'd x 9'w. The booth is located behind rows NN, seats 101-127. Cable run to the booth is approximately 300'

ALT MIX – IN FRONT OF SOUND BOOTH

Located in rows MM & NN, seats 101 to 127 in the rear orchestra level approximately 135' from the stage and is 6'-6" d and up to 22' w. Two rows of fixed theatre seating must be removed to use this position and may add additional labor charges. Cable run is 300'

KING'S ROW

This is the preferred position located in center of the orchestra level rows Y & Z, seats 101-114; approximately 75' from the stage. This position is 24' w x 7'-8" d, with a wall in front and back that is 2'4" high. Two rows of portable seating, approximately 24 seats, must be removed to use this position; discuss with Production of Event Staff prior to tickets going on sale. Cable run is 250'.

      3   Yamaha CP300 Keyboard with Weighted keys

ORCHESTRA CONCERT SHELL
There are four concert shell units that are forty-one feet tall, 20' -9" across, and 8'-6" deep; the two side units have double doors built in to allow entrances on both sides of the stage, just above the proscenium. Once the shell units are placed, pre-hung ceiling units are flown in to complete the shell. When completely assembled, the shell is architecturally consistent with the rest of the hall. The shell units are designed to play in one of two configurations:

    Shallow Setting which is 17' deep and 39' wide at the rear, with entrance doors DL and DR.
    Deep Setting which is 26' deep, and 39' wide at the rear, with entrance doors DL and DR.

DRESSING ROOMS

All dressing rooms are located off stage right. All rooms are equipped with showers, toilets, mirrors and chairs. Rooms 144-145 are the Star/Soloist dressing rooms with a small reception area, wet bar and private bath. Rooms 121-122, and rooms 141-142 can accommodate 2-4 people, rooms 123-128 can accommodate 8-10 people. Dressing Room #122 has a door connecting directly to the ADA compliant restroom; this door is locked unless an ADA compliant dressing room is requested. See dressing map on the page 36 for location.

Dressing Room #	Suggested Capacity	Dimensions
Room #121	2 - 4 people	9' W x 10' L
Room #122	2 - 4 people (ADA available)	9' W x 10' L
Room #123	8 - 10 people	8'-6" W X 24' 8" L
Room #124	8 - 10 people	8'-6" W X 24' 8" L
Room #125	8 - 10 people	8'-6" W X 24' 8" L
Room #126	8 - 10 people	8'-6" W X 24' 8" L
Room #127	8 - 10 people	8'-6" W X 24' 8" L
Room #128	8 - 10 people	8'-6" W X 24' 8" L
Room #141	2 - 4 people	9' W x 10' L
Room #142	2 - 4 people	9' W x 10' L
Room #144 – Star DR	1 person	2 Room Suite
Room #145 – Star DR	1 person	2 Room Suite

Dressing Room #123-128

Dressing Room #121,122, 141, 142

Star Dressing Room

Star Dressing Room

PRODUCTION OFFICES

The Au-Rene theater is equipped with office space for touring acts. There are three rooms set up specifically for use as offices and the Green room the can be converted for office space if needed. These offices are located adjacent to the dressing rooms, off stage right of the theater. Each room has phone and network connections, folding tables, and chairs. Please note that there are additional fees for use of internet, phone, and long-distance calling. The default arrangement is as follows:

STAR MANAGER'S OFFICE

The Star Manager's Office is directly across from the Star Dressing rooms. It is 8'-10" by 8'-4". It has two phone connections and one data port.

STAGE MANAGER'S OFFICE

The Stage Manager's office is located between the Star Dressing Rooms and the Chorus Dressing Rooms, facing the Green Room. It is 11'-0 by 8'-10". It has three phone connections and one data port.

COMPANY MANAGER'S OFFICE

The Company Manager's Office is located between the Star Dressing Rooms and the Chorus Dressing Rooms, facing the Green Room. It is 11' by 8' 10". It has three phone connections and one data port.

TELEPHONES

The Broward Center has a total of (8) phone lines available for use in the backstage areas of the Au-Rene Theatre. There are (6) digital phone lines that require BCPA handsets, and (2) analogue lines that will work with fax machines, standard handsets, or personal voicemail systems. BCPA handsets include voicemail. Please contact the Production Department for phone arrangements and numbers.

GREENROOM

The Au-Rene Green Room is 38'-8" x 16'-10" and has a small kitchen area with a microwave, coffee maker, sink and refrigerator.

It can be used as a Catering Room, Wardrobe Room, Production Office, or a Rehearsal/Warm-Up Room.

It has one wall of mirrors and barres, a wood floor (no rosin allowed) and can be set to have five phone lines and a data port.

There are also barres and mirrors located in the hallway across from dressing rooms 127 and 128, and in the hallway across from the stage entrance to Down Stage Right.

WARDROBE & SUPPORT SPACES

WARDROBE ROOM

There is no dedicated Wardrobe Room at the Broward Center, just a small room for minor repairs. The Show's Wardrobe Department has the option of setting up in a dressing room or the Au-Rene Green room. The "wardrobe room" really works as a laundry area so most shows opt to use Dressing Room 123 as a wardrobe workroom, if one is required. Arrangements should be discussed with Production Staff prior to the company's arrival.

LAUNDRY ROOM

The Broward Center has one Laundry Room which is located in the back of the Wardrobe Room. There are three washers and three dryers as well as a double sink.

CARPENTRY SHOP

The Broward Center has a small woodshop equipped for general repairs as well as limited equipment for metal and steel. It is located in the Au-Rene backstage, so usage is dependent on activity in the Au-Rene.

ADDITIONAL RENTAL SPACES

The following space must be reserved in advance and is subject to availability: The Einstein Room is 36' x 18' and is located next to Au-Rene Green Room. It has no mirrors or bars. Please contact the Event Services Director for arrangements.
