BACKSTAGE CREDENTIALING POLICY
To increase the safety of our backstage environment, the Broward Center for the Performing Arts (BCPA) will be requiring all BCPA staff, stagehands, vendors, performers and their respective representatives to have and display a credential at all times while in any of our backstage areas.

Credential Criteria
Credentials are to be produced, maintained, distributed and collected by the entity performing in a BCPA venue. Although it would be optimal to have every individual’s name and photo on a credential, this may not be feasible in all situations. At a minimum, the credential must have the following characteristics:

• Credit card size or larger and double sided
• Include the name and logo of their organization
• Plastic or laminated
• Affixed to a belt-style clip or lanyard
• Be difficult to easily replicate

Displaying and Wearing Credential
• Present credential at the Security Desk
• Conspicuously wear credential while backstage
• Everyone must have their own credential
• Provide a sample copy of credentials to BCPA Venue, Production and Security in advance
• Credentials are NEVER expected to be worn on stage

Exceptions
• Headliner artists who remain on tour buses or who arrive immediately prior to showtime are not expected to display/wear a credential
• Children performing in recitals or BCPA Education productions are not expected to display/wear a credential, but must be accompanied and escorted by someone wearing credentials

LOADING DOCK

The New River Room does not have a direct loading area. Depending on the installation and the schedule of events, equipment can be brought in from the ramp out in front of the theatre, or the loading dock in the Amaturo Theatre (elevator to the lobby to the south of the room). The elevator doors are 6’ wide by 7’ high, and the interior space is 8’ by 8’, with three extra inches added by the indentation of the doors.

The Amaturo Loading Dock is located at the southwest corner of the building at S.W. 7th Ave and Las Olas Boulevard, but trucks must use the entrance on the north end of the parking lot on Himmarshee Street. There are two loading bays. The dock is 3’ high, and the receiving doors are 8’ wide by 8’ high.

DIMENSIONAL INFORMATION AND CAPACITY

The dimensions of the Abdo New River, bare, are 50’ deep, by 72’ wide, with a ceiling 20’ high.

The capacity of the New River Room depends largely on the layout of the room. In the default format setup for a cabaret or dinner theater, the room seats about 160 people. Set up theatre-style, the room can accommodate 200 people.

STAGE SPECIFICATIONS

The “stage” consists of Wenger orchestra risers, and two wood framed profile pieces to created a rounded downstage edge. The default configuration is 12’ deep, 24’ wide, and 24” high, with wings consisting of an 8’ by 4’ riser extending off the upstage edge of each side of the stage. There is 3’ wide crossover. (see a room plots on pages 8 and 9)

RIGGING SPECIFICATIONS
