**Brazilian Voices will perform Bossa Nova,
(in Portuguese: "new trend")**

Bossa nova is a Brazilian popular music that evolved in the late 1950s from a union of samba (a Brazilian dance and music) and cool jazz. The music is in syncopated 2/4 time. The composer Antonio Carlos Jobim and the guitarist João Gilberto may be considered the founders of this style, which was considered particularly characteristic of Brazilian culture.

As an added bonus, Brazilian Voices will distribute sanitized and safe musical gift items to the audience to encourage participation, consisting of egg-shaped shakers for the children to use to shake and play with while singing.

These performances are intended to create a welcoming and supportive environment for children and adults on the autism spectrum as well as individuals with other sensitivity issues.
